

ibsio PORTFOLIO

What is the purpose of this portfolio?

This is a site where I will be able to communicate my business/
career progress and latest projects with the market and
industry peers which also will accompany my social media
profiles to form my digital identity as a developer.

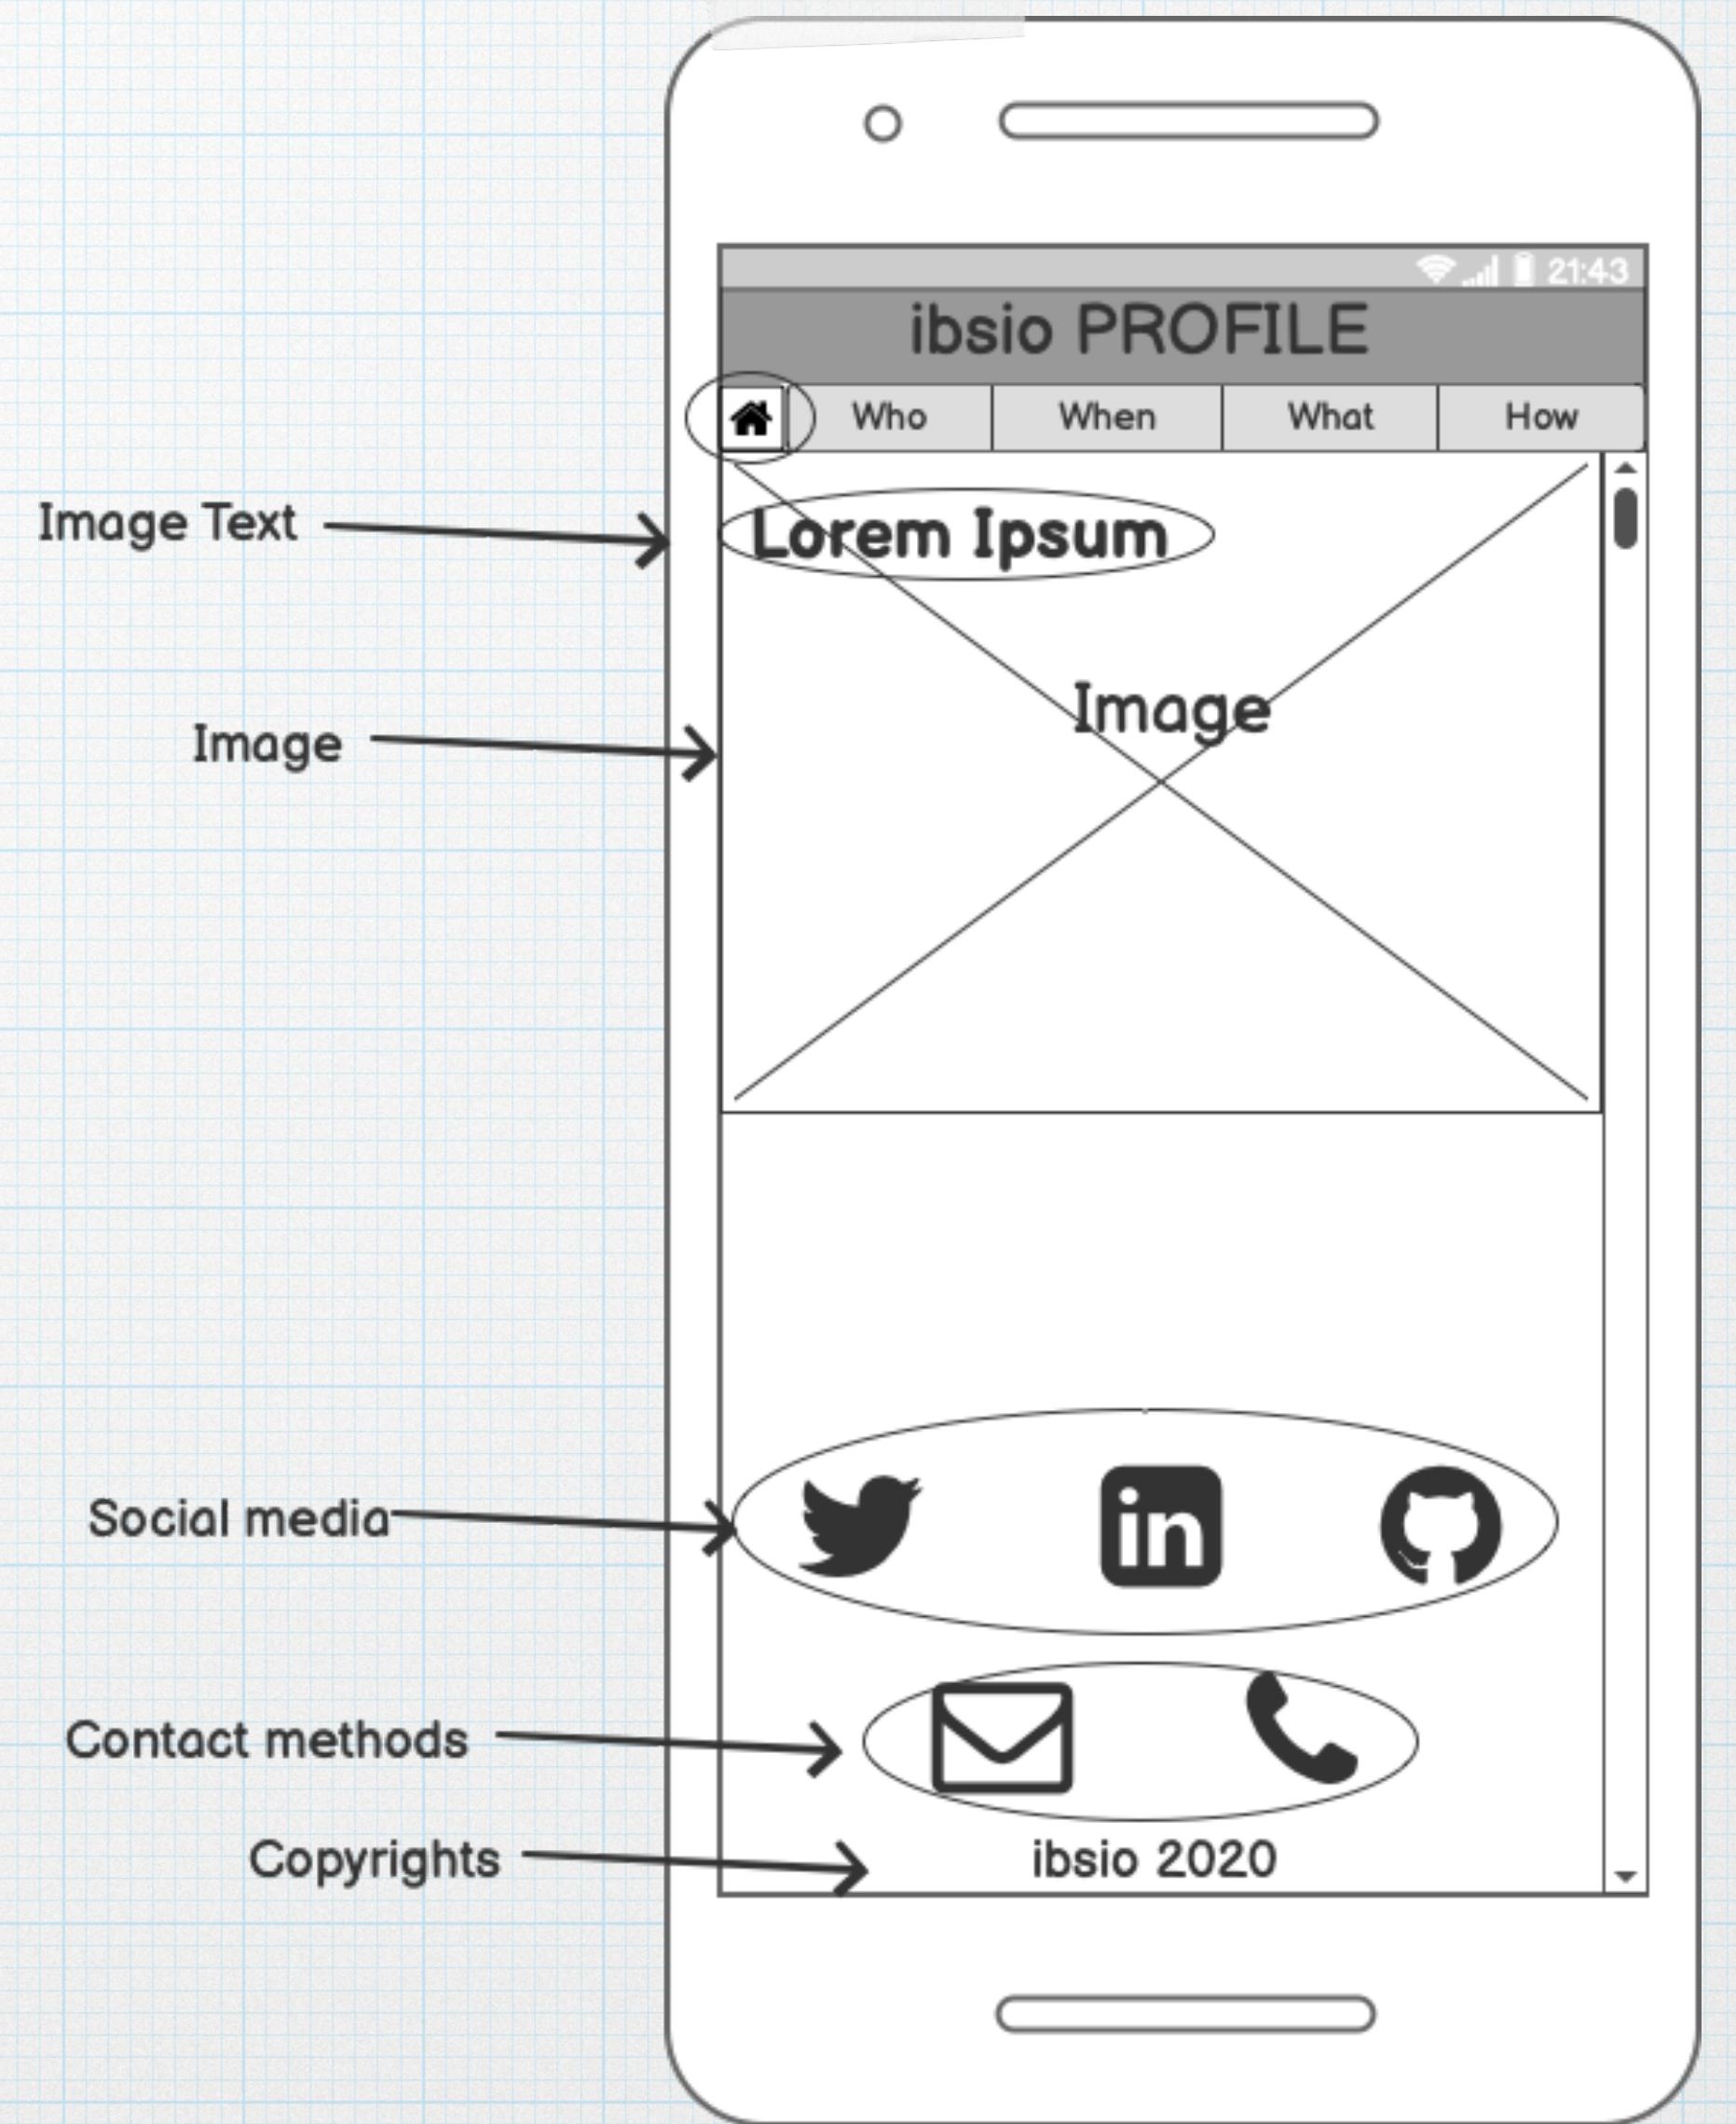

The following slides are quick overview for my digital portfolio.

Site Map

Home Page

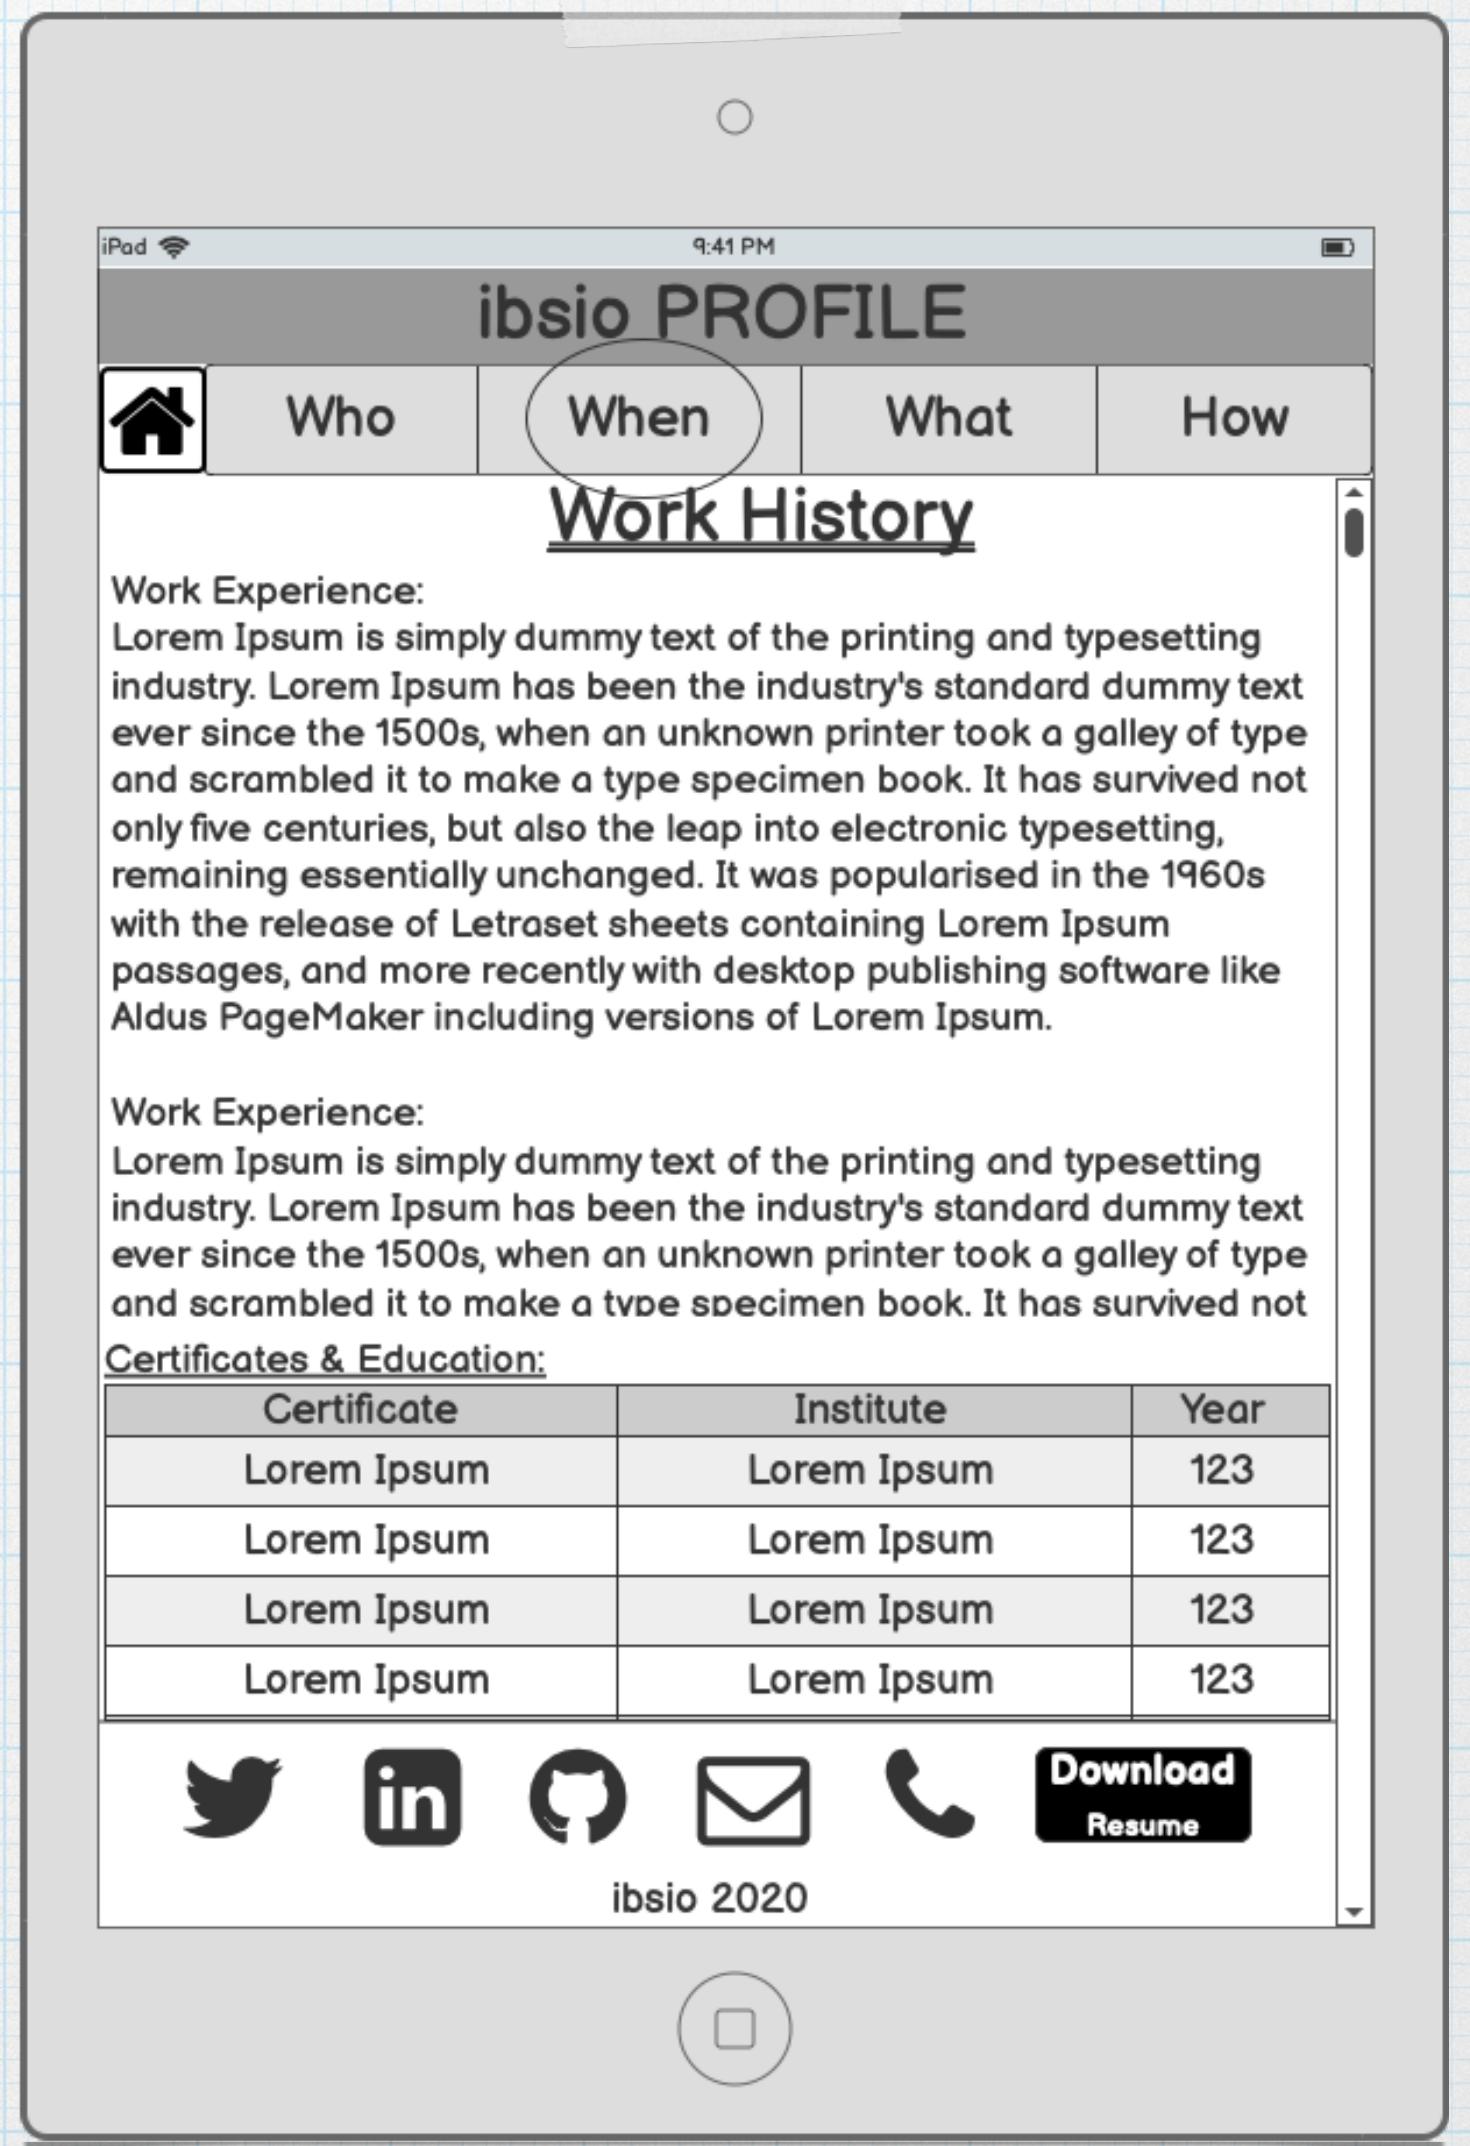

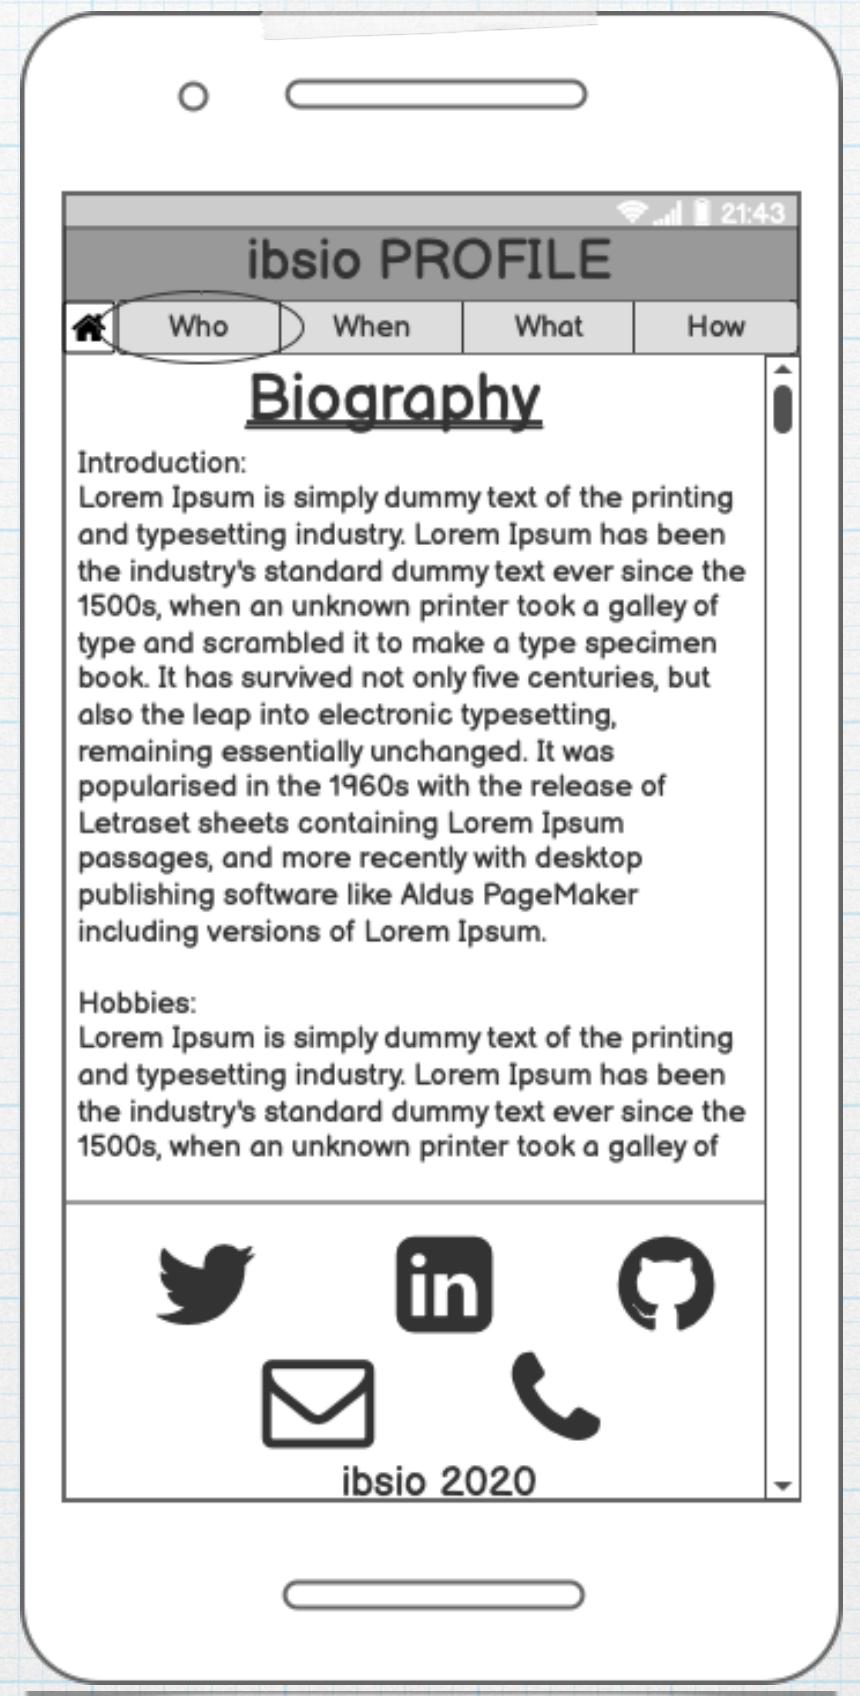

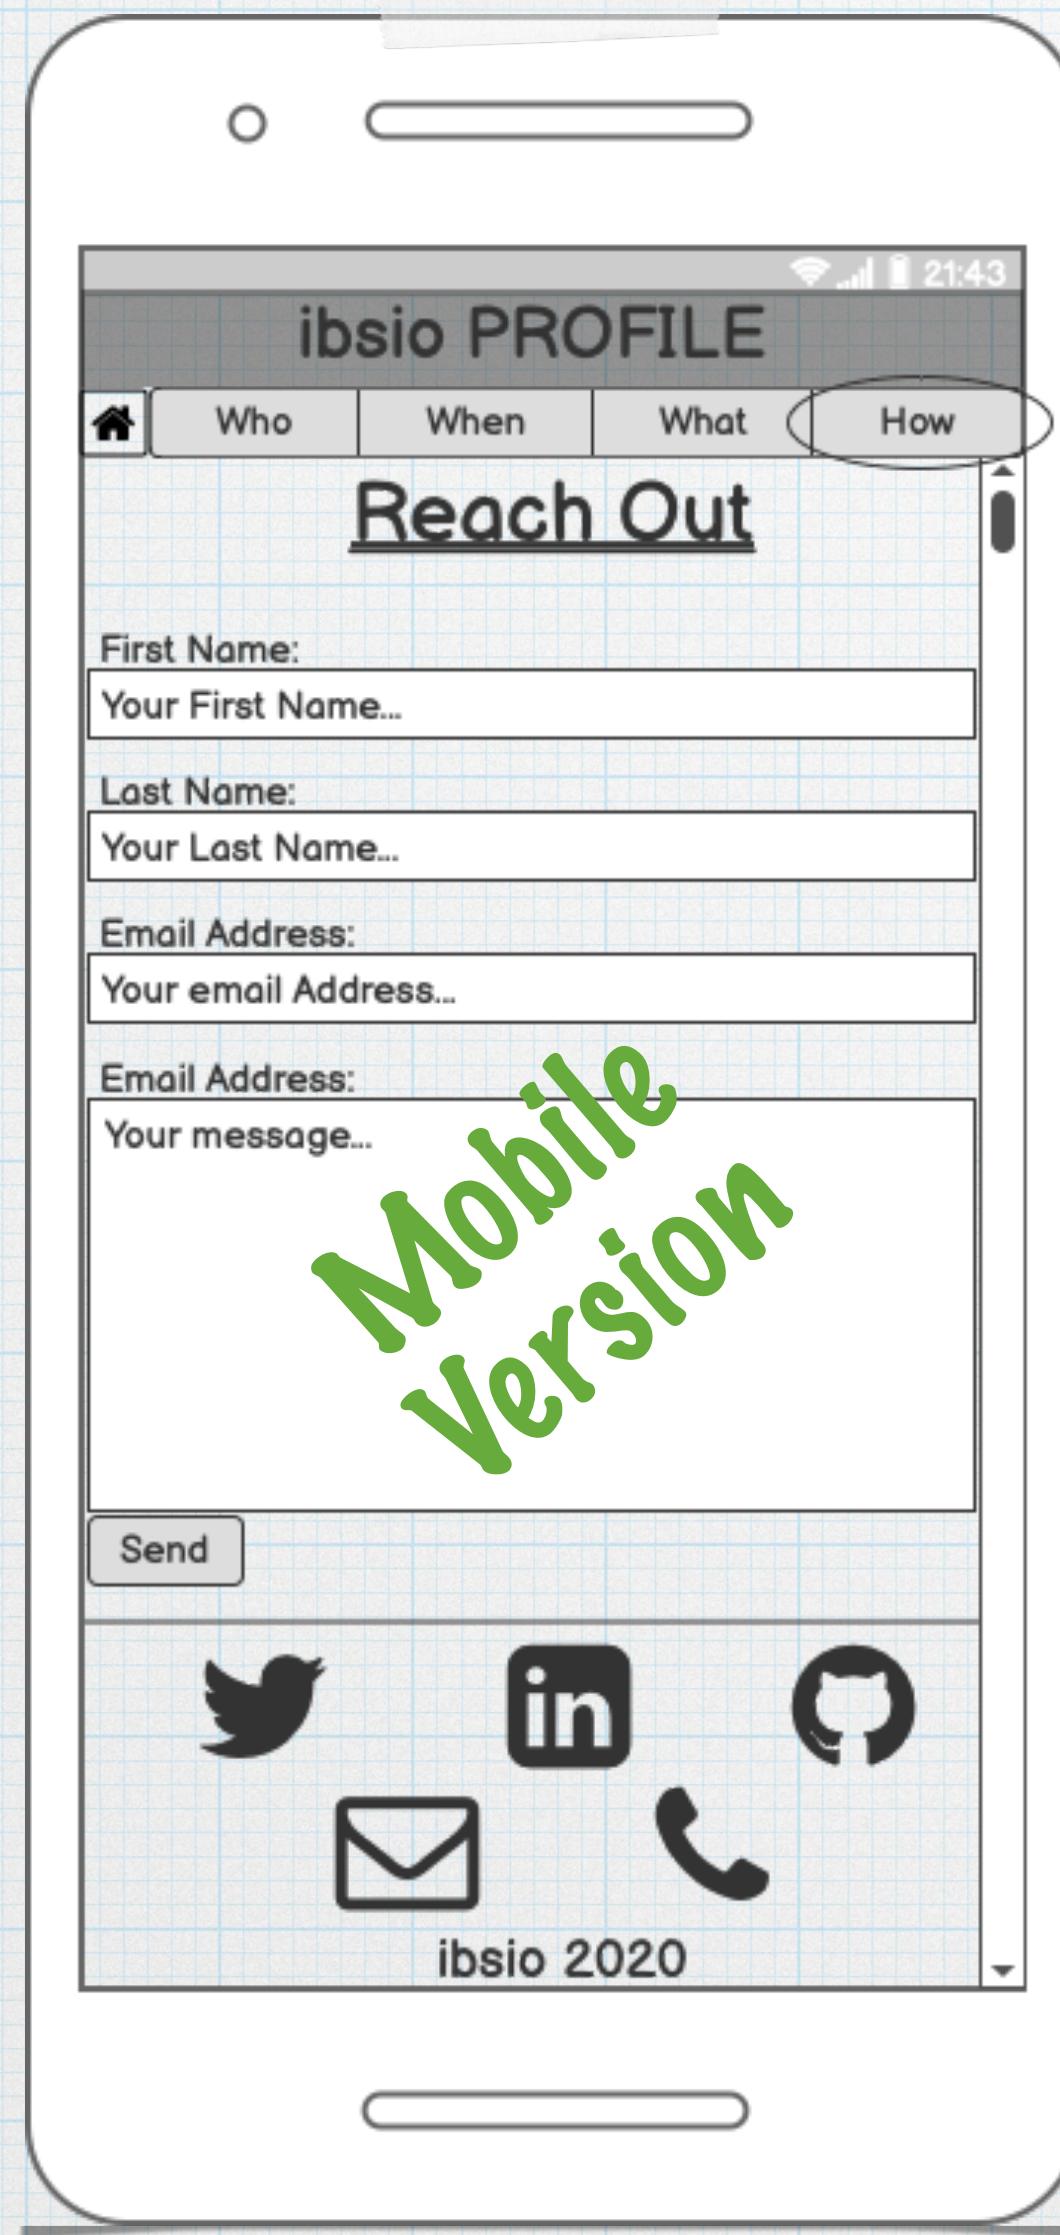

Mobile version of Bio page & Tablet version of Work History page

Email icon is click to mail and the telephone icon is click to call.

Social media icons are linked to my handhelds.

Resume download opens in a new tab on the desktop version and it is the user choice to download or read only. On the mobile version it downloads automatically .

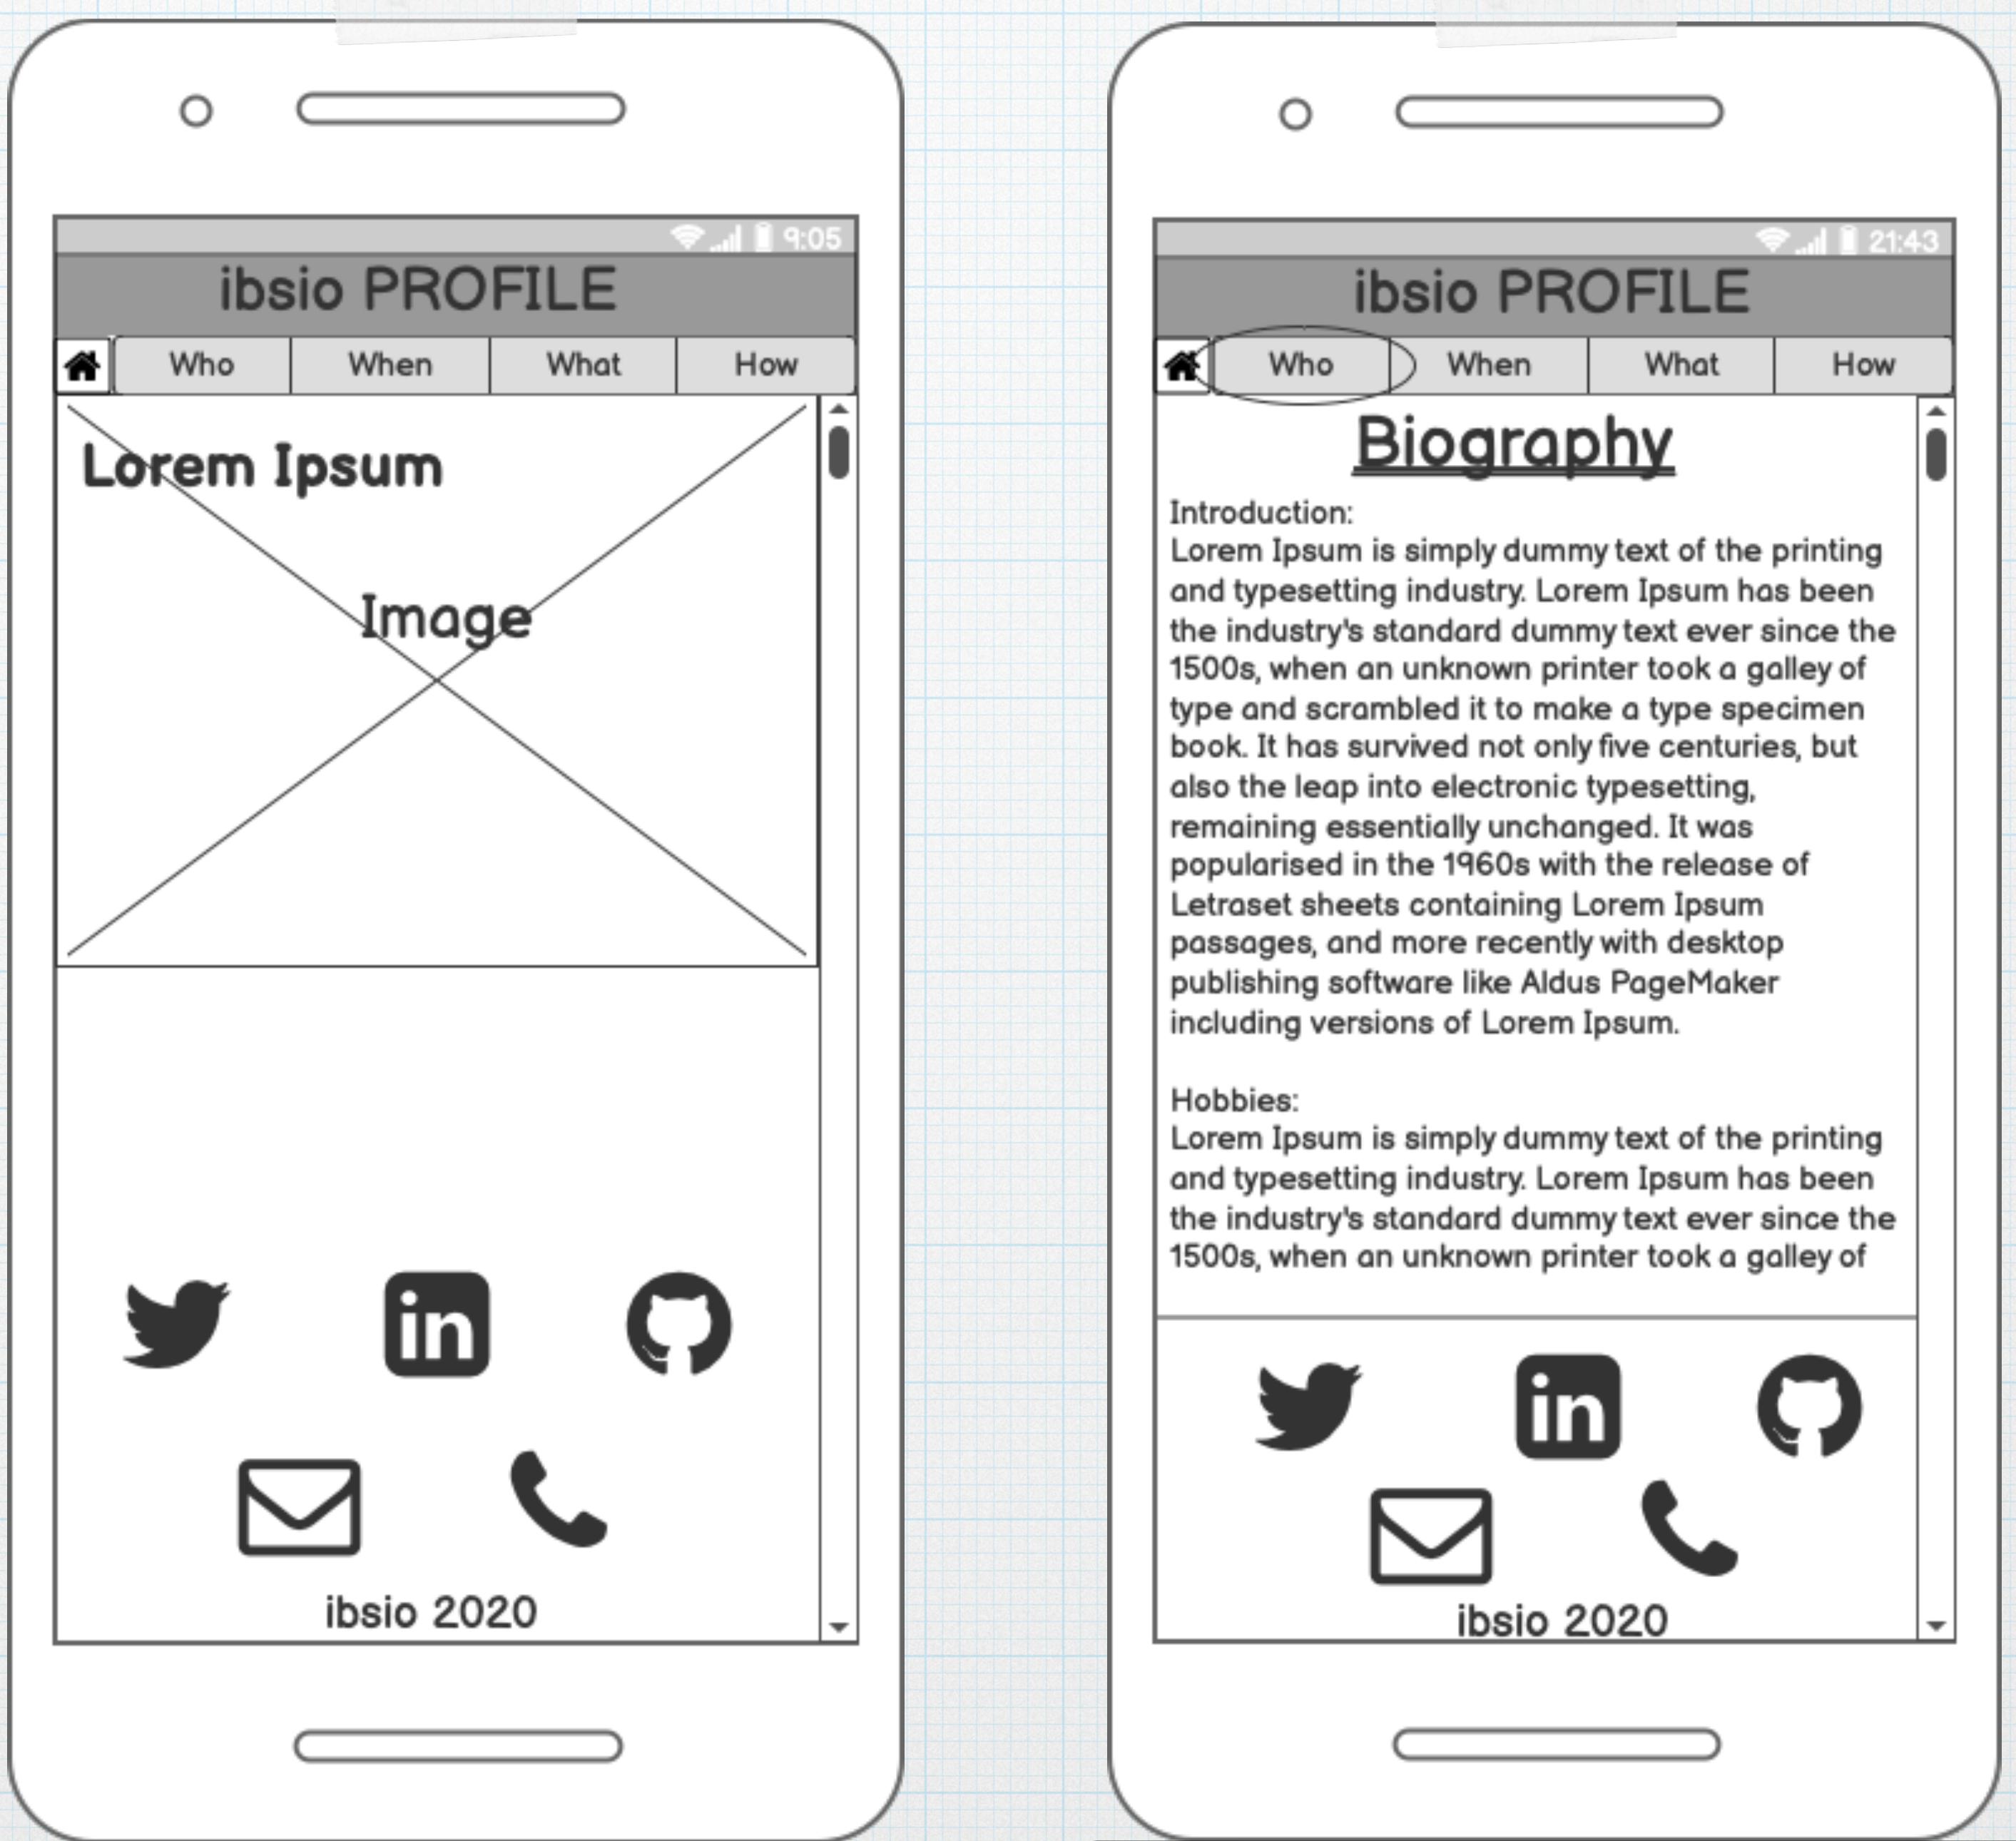

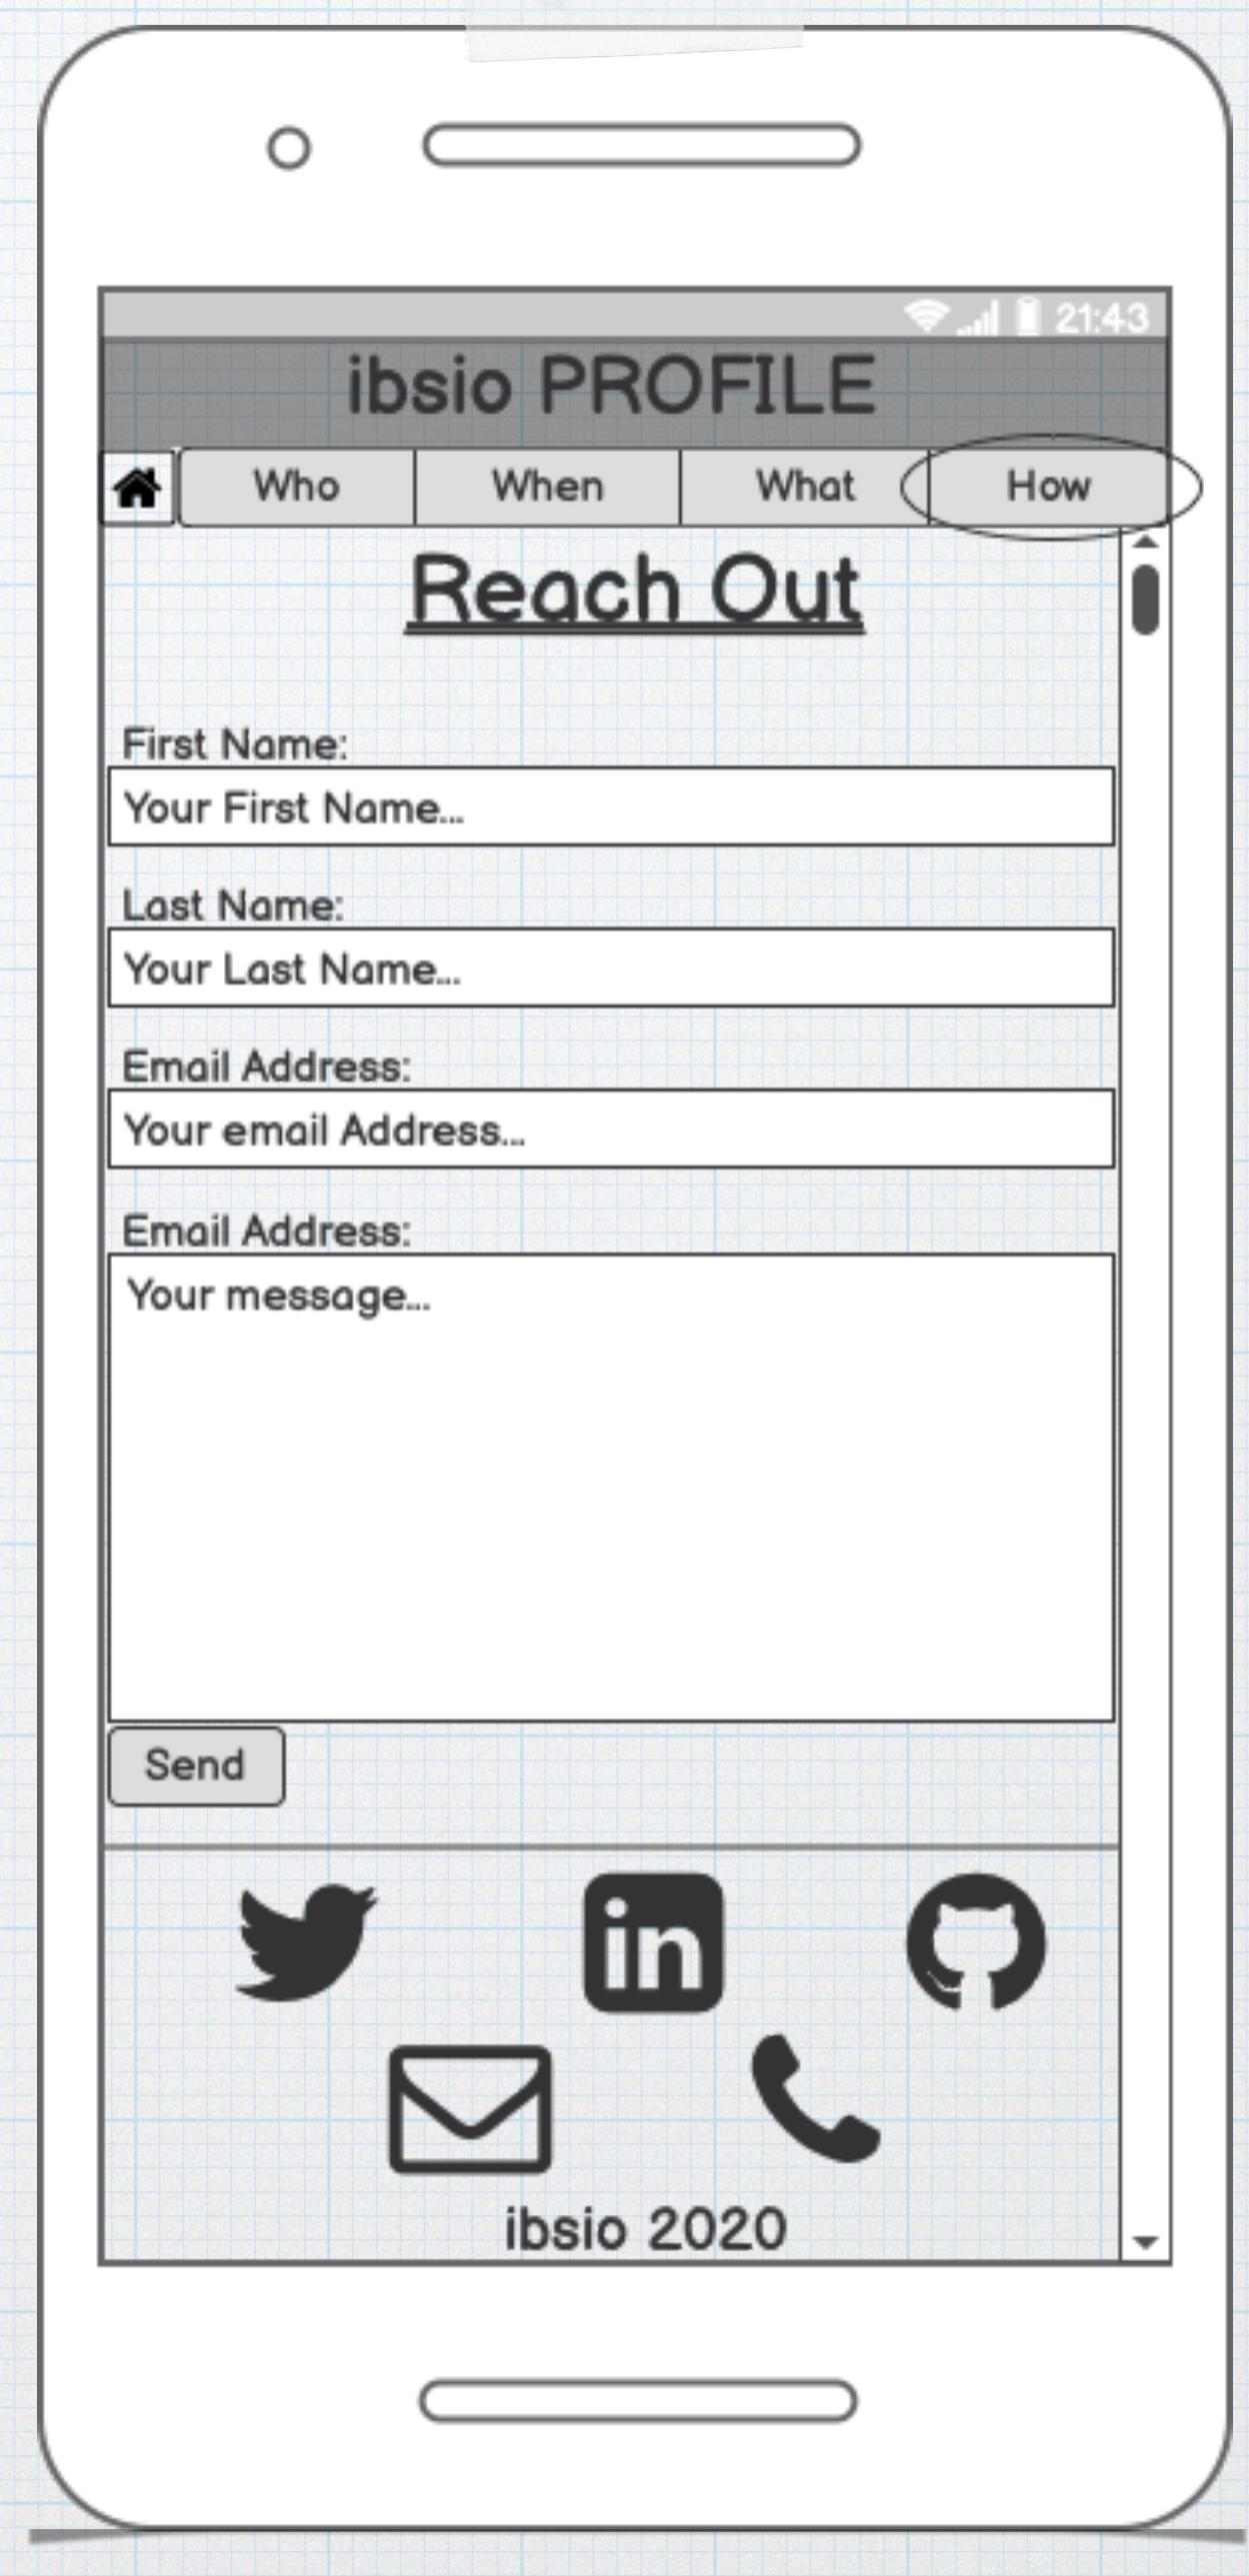

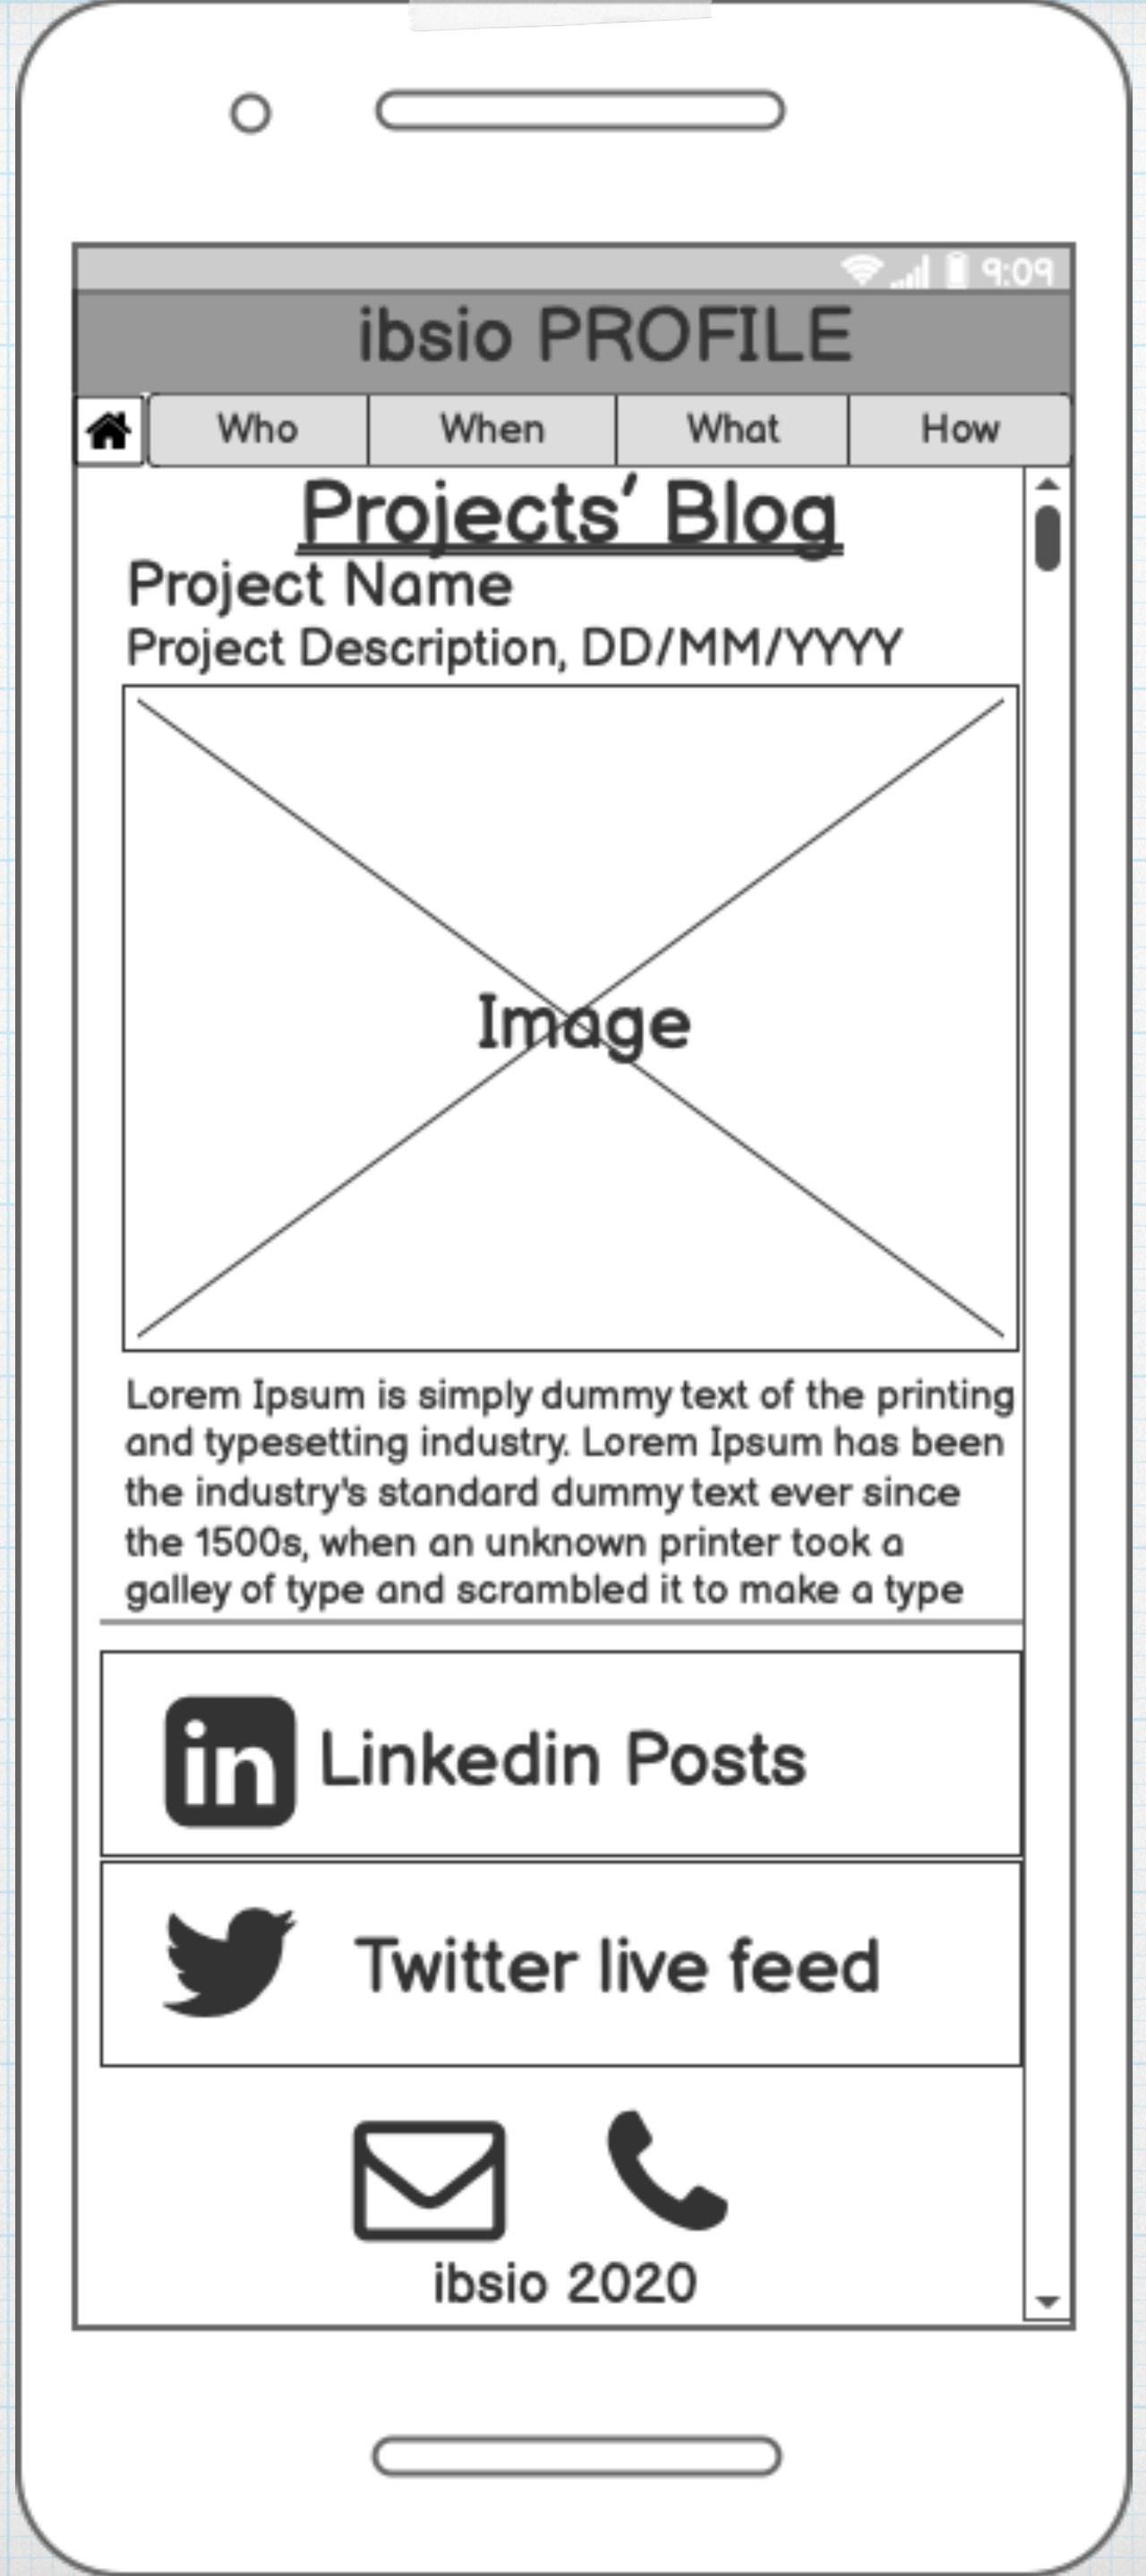

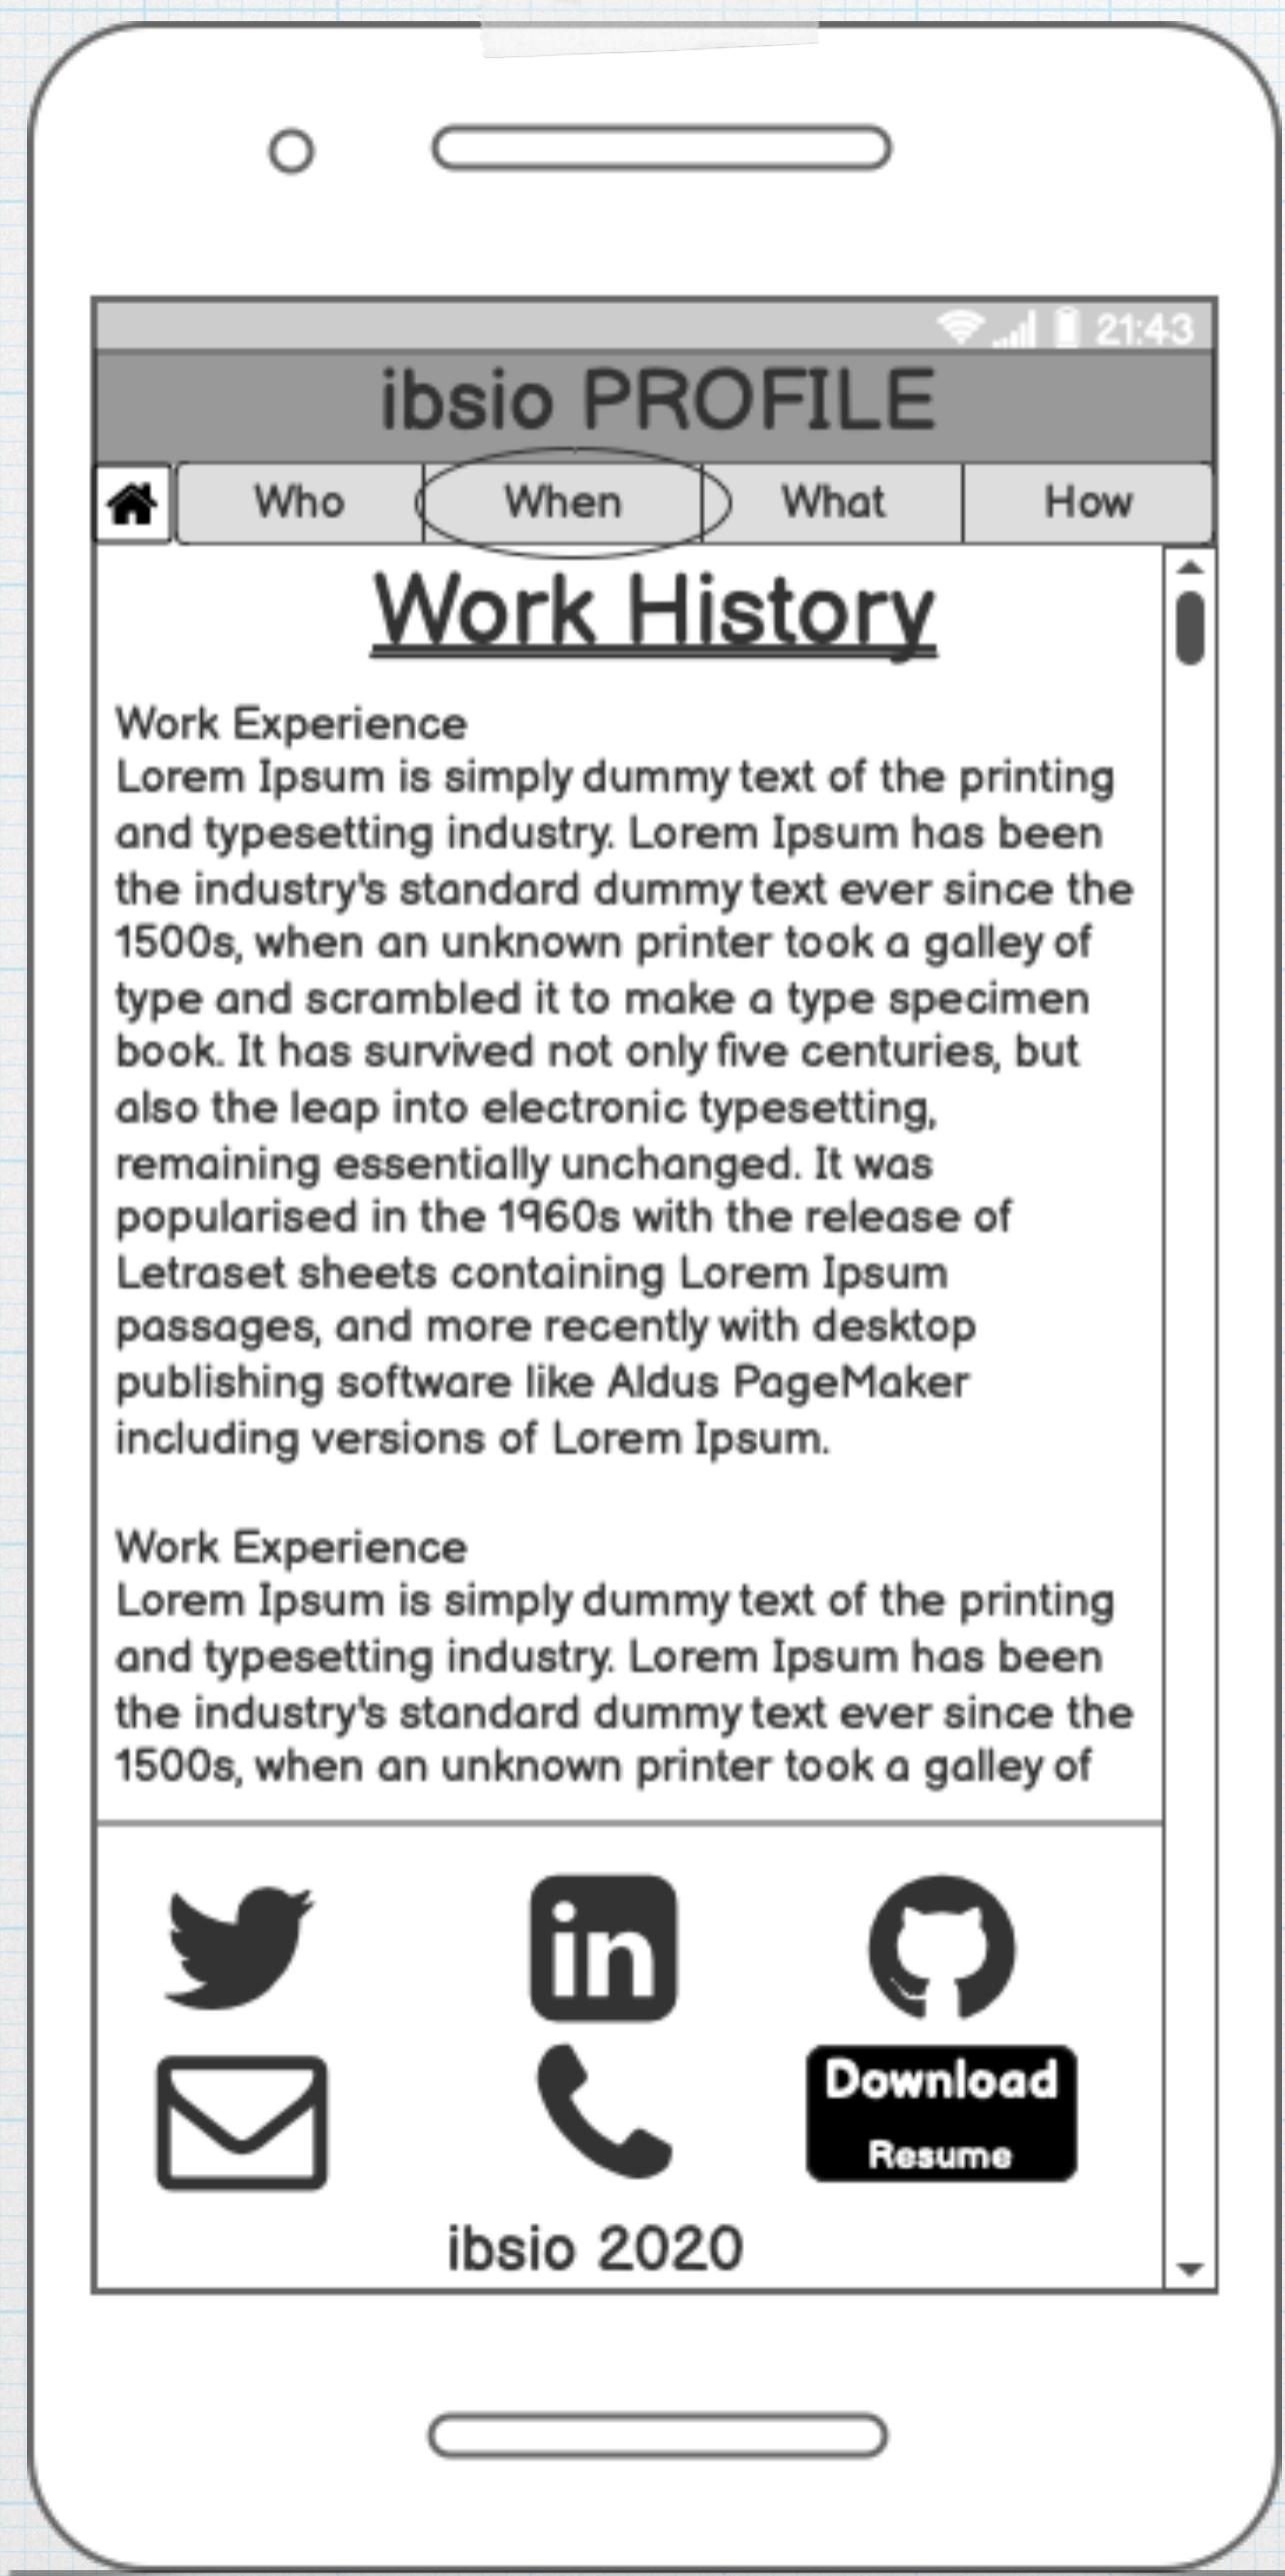

A wireframe diagram of a desktop browser window displaying the 'ibsio PROFILE' website. The top bar includes a back/forward button, search icon, and a menu icon. The header 'ibsio PROFILE' is visible. Below the header is a navigation bar with tabs: Who, When, What, and How (the 'How' tab is highlighted). The main content area features a large button labeled 'Reach Out'. Below it are four input fields: 'First Name' (placeholder 'Your First Name...'), 'Last Name' (placeholder 'Your Last Name...'), 'Email Address' (placeholder 'Your email Address...'), and 'Message' (placeholder 'Your message...'). At the bottom is a 'Send' button and social media sharing icons for Twitter, LinkedIn, GitHub, Email, and Phone. The text 'DeskTop Version' is written diagonally across the middle of the screen. On the right side of the desktop window, there are icons for Twitter, LinkedIn, GitHub, Email, and Phone. The footer of the website reads 'ibsio 2020'.

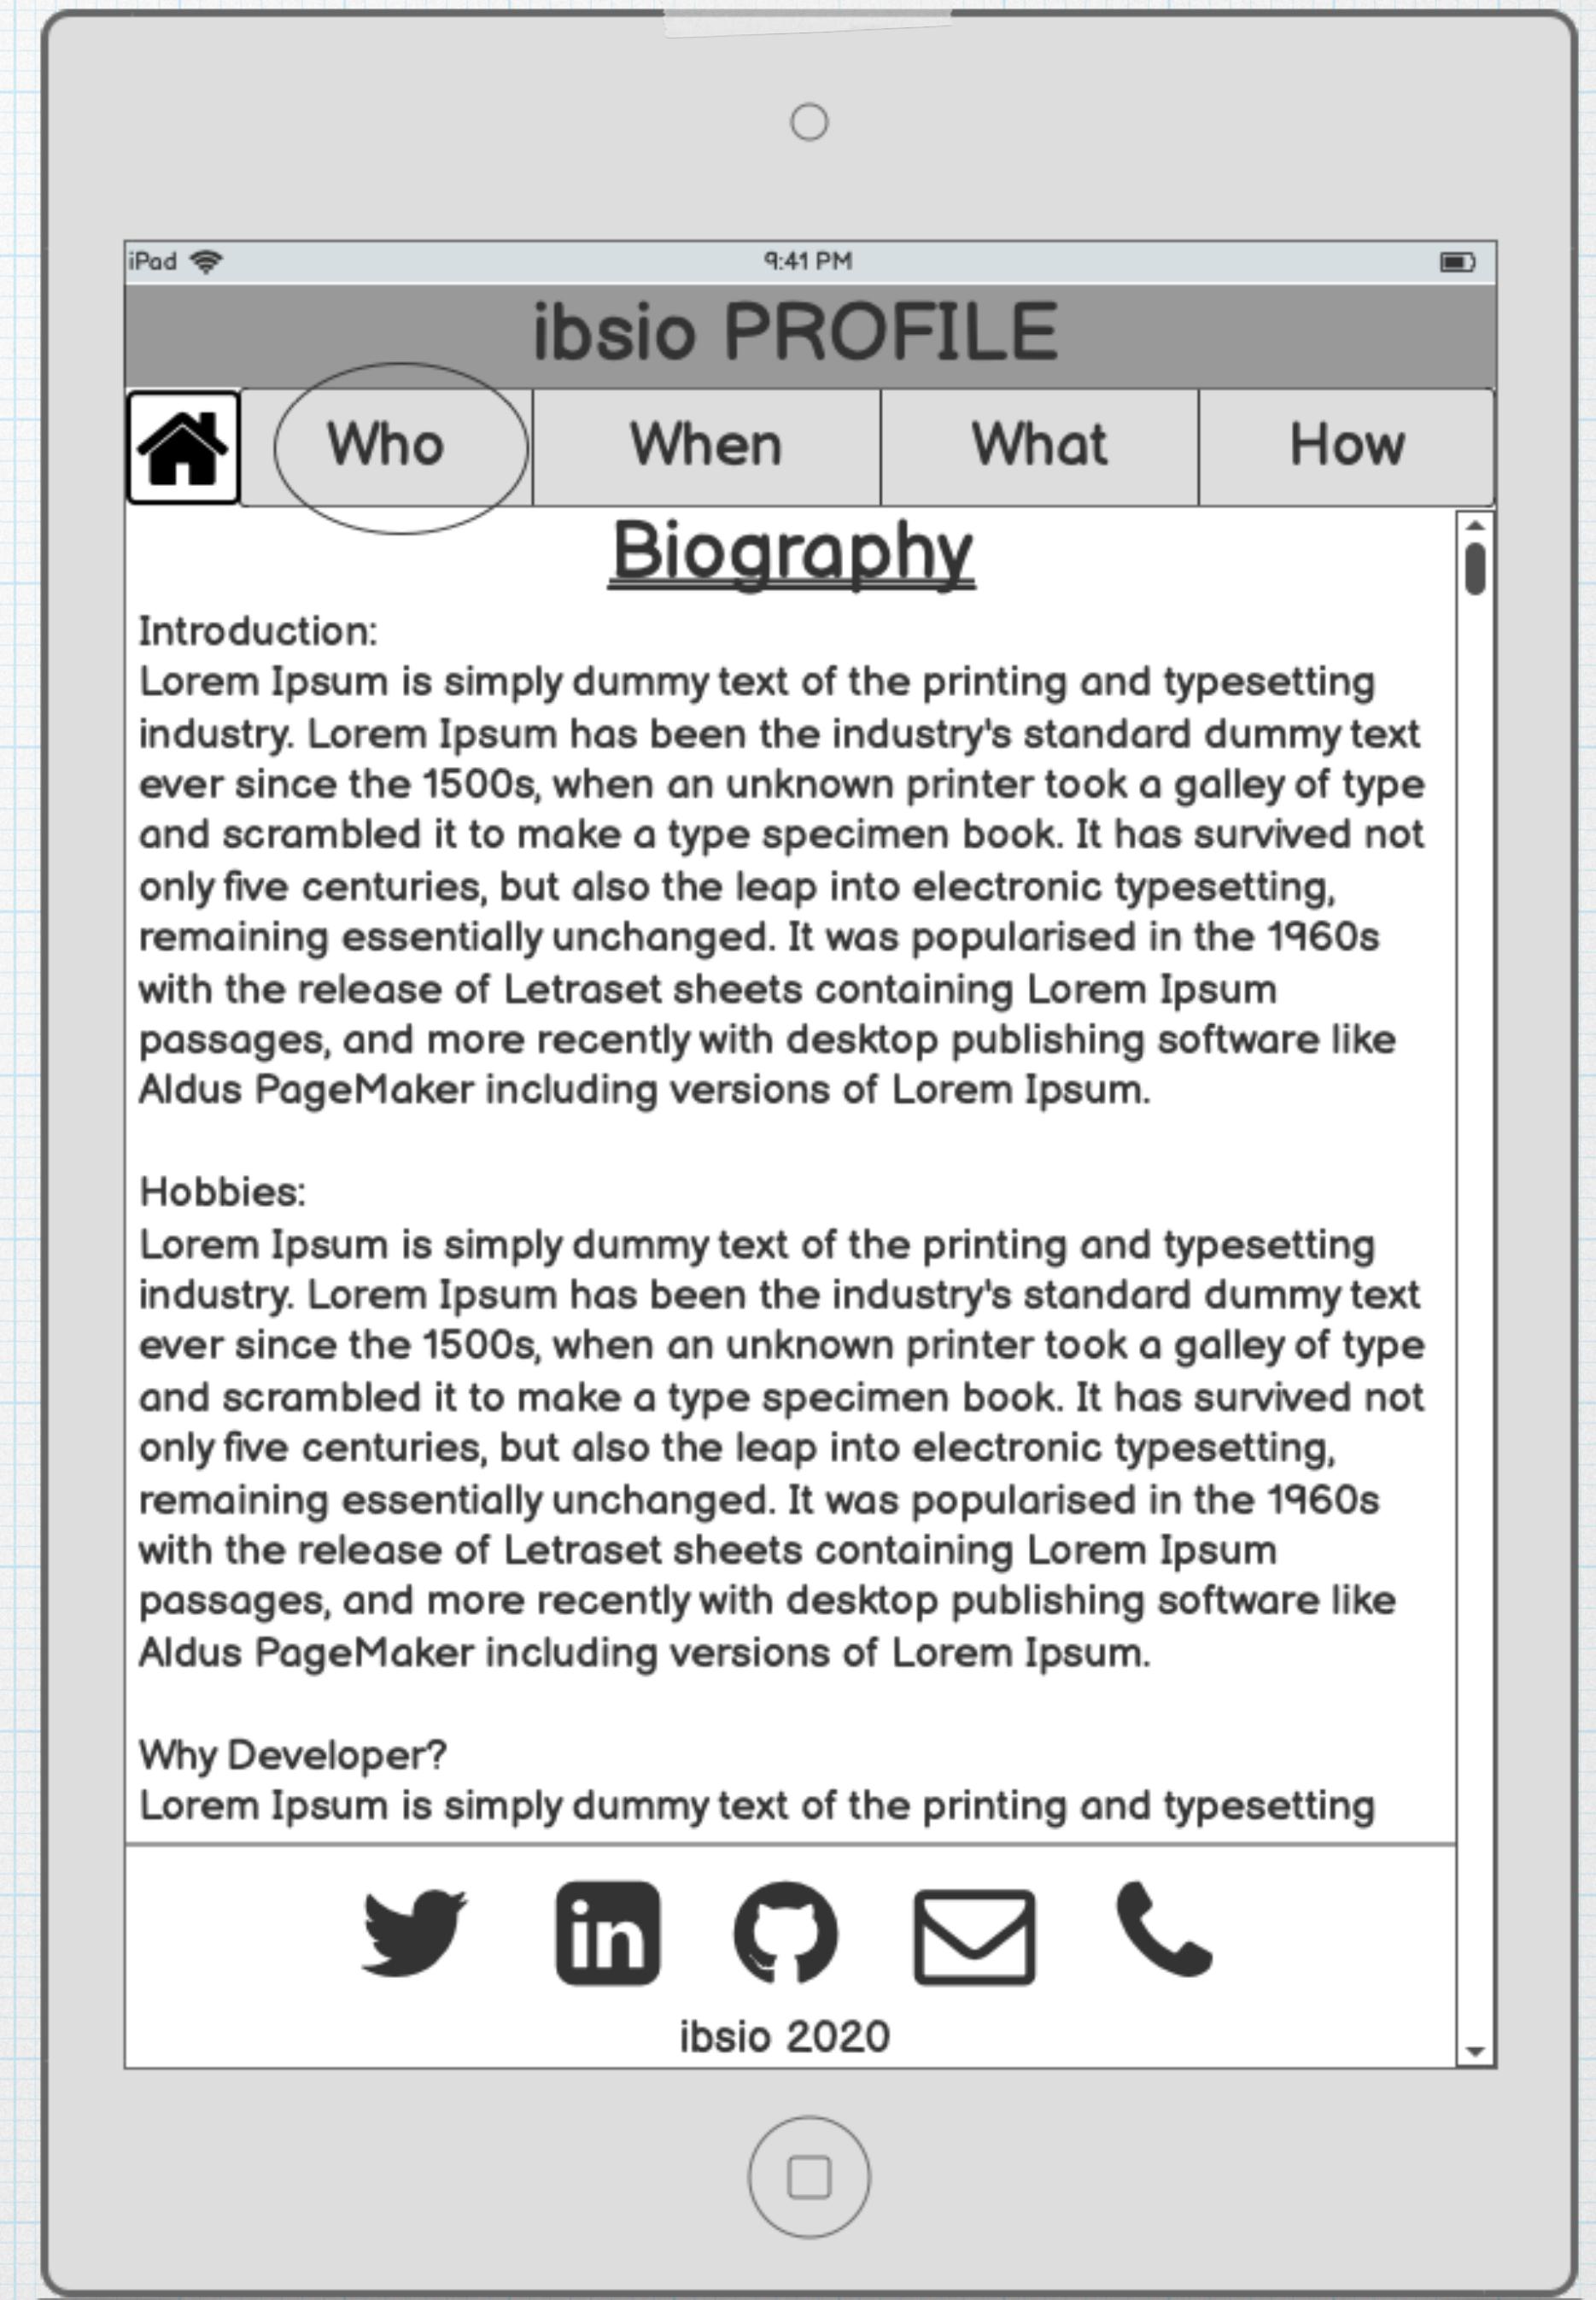

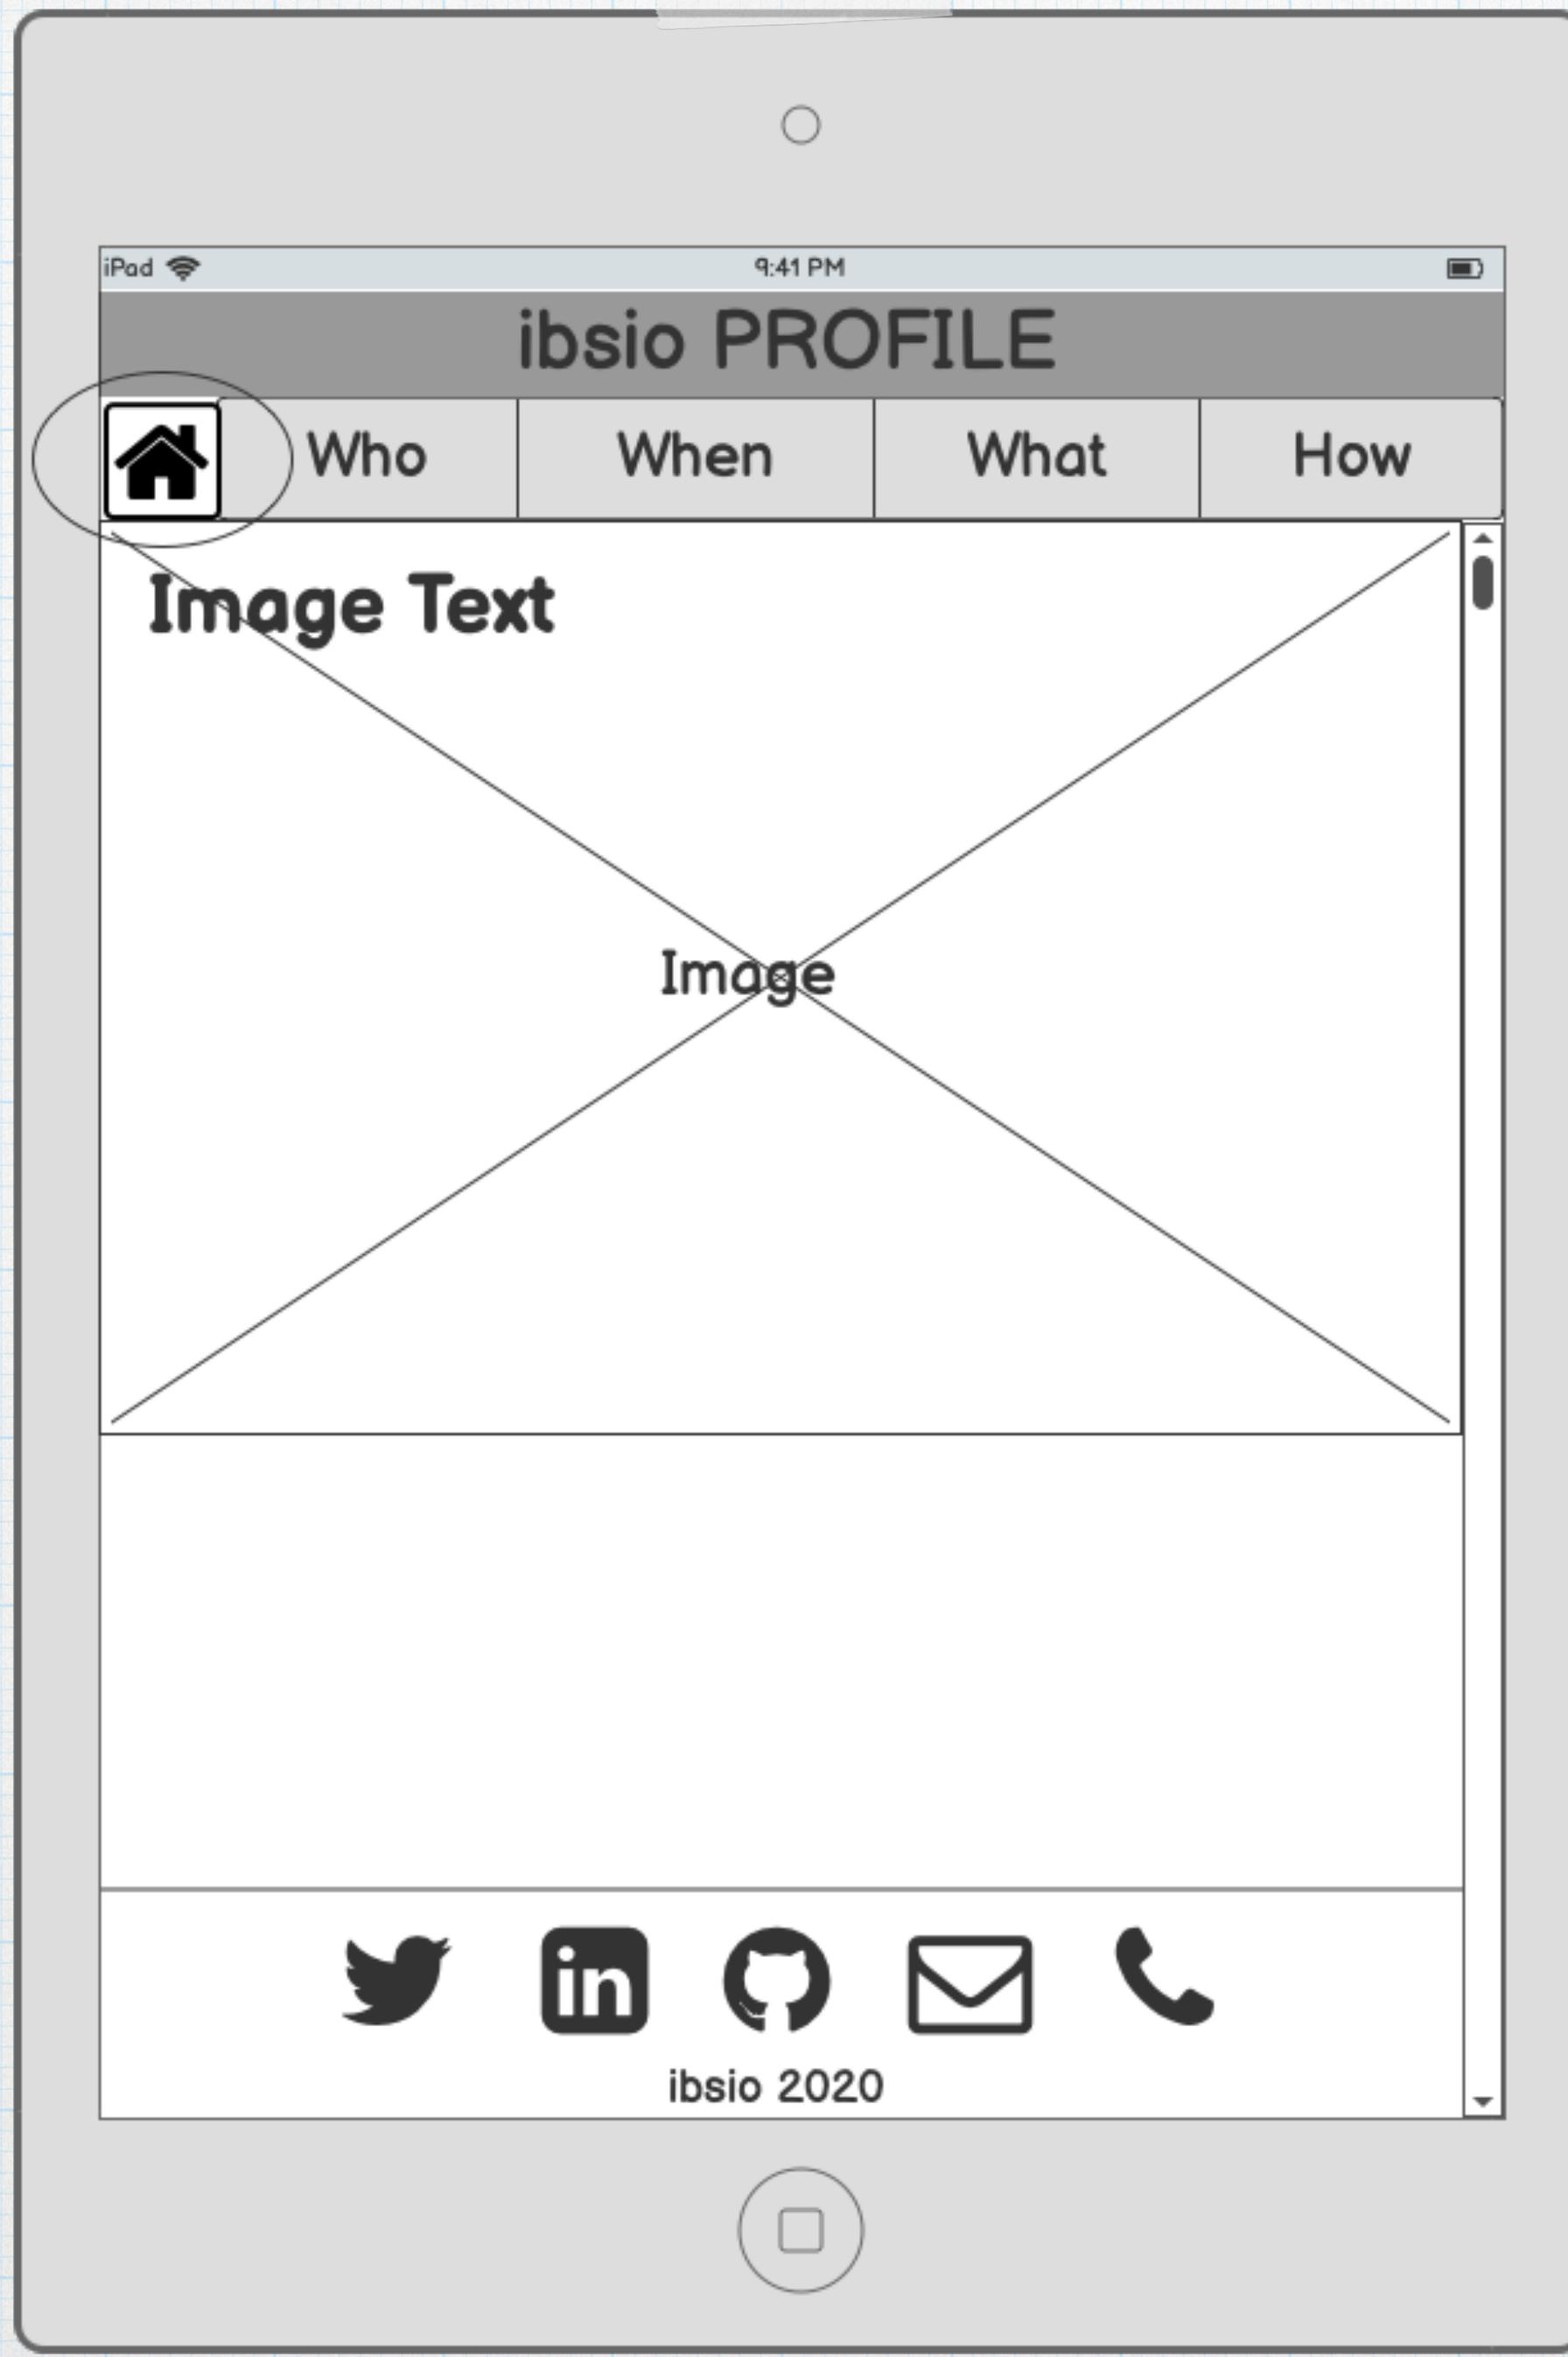

Responsiveness between different display versions.

Work History

Work Experience:
 Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

DeskTop Version

The image shows a wireframe of a desktop web browser window. At the top, the title bar reads "ibsio PORTFOLIO". Below it is a toolbar with standard icons for back, forward, search, and menu. The main content area displays the "ibsio PROFOLIO" logo in large letters. A navigation bar below the logo includes a house icon and four categories: "Who", "When", "What", and "How". A large, semi-transparent rectangular overlay covers most of the content area, containing the text "Image Text" at the top left and "Image" in the center. At the bottom of the browser window, there is a footer bar featuring social media icons for Twitter, LinkedIn, GitHub, Email, and Phone, along with the text "ibsio 2020".

Design Concept and Colours

The design was built on friendly use basis where the site visitors can easily access the needed information with no more than 2 clicks. This is a very important aspect to avoid boredom and losing visitors.

Chosen colours “green & grey” are two opposites and complement one another.

* Green is a cool colour, one of the main colours in the RGB combinations and it reflects growth, harmony, freshness, safety and environment. Green is traditionally associated with money, finance and banking...this what business is about!

* Grey is a cool colour as well! It is neutral, balance and emotionless, it is associated with characters such as formal, conservative and sophisticated.

Components and Functionality

As you can see, this site is built on several components which will be engaging with target audience in a friendly use environment. Its responsiveness makes it easy on visitors to walk through it from their preferred screen yet having full functionality of the site.

- * A standout navigation bar that can help the user surf the site with a click of a button, all pages can be reached easily.
- * Social media live feeds that can keep the visitors up to date.
- * Contact form where visitors can send messages instantly.
- * Click to call and click to mail buttons.
- * Liked social media handhelds.
- * Recruiters and employers can literally obtain my CV within a click of a button.
- * And most importantly, anyone can get to know a bit about me through the bio page.

Challenges

I started building this website with SCSS, the first 3 days were stressful and I felt I am not very comfortable so I took the decision to switch to CSS and for that I had to start all over again. I had no issues with the design and colours but the biggest challenge I had was the time and the code part, few days down the road I caught up and things became smoother. Since this is our first project, researching css properties and html elements was constant, feels like copying others which made me question if what I'm doing is right or wrong but I got to understand that this is the method to have hands on and learn.

But with all the challenges I have faced, seeing the site how it came out gave me pleasure that this was achieved with no time! I mean three weeks ago I wasn't able to right a single html code and today I have built a website!

THANK YOU!
